About us

At Ideal Healthcare we believe that a recruitment company should be a specialist in their field, able to provide a tailored, professional service to clients and candidates. Our company was formed with that philosophy at its core, and since then we have dedicated ourselves to the healthcare industry by offering a streamlined and effective service that delivers results.

Fast facts

- Group established in 1998
- Truly international platform across Asia, Australia and Europe
- The same leadership since inception, successful and sustainable
- Average consultant has 9 years experience in their industry
- Operating in niche sectors with market experts at the helm
- Highly proactive, aiming to offer a genuinely consulting led service
- Research driven with an army of market mappers supporting the front line
- Strong brand equity, powerful image and well respected

Ideal Healthcare offers full APAC coverage with offices in Hong Kong, Singapore and Sydney. Our people are sector experts with the full suite of sector knowledge enabling them to engage intelligently with senior clients.

Clients

Our knowledge of the sector helps us build trust, respect and loyalty, three vital components for efficient delivery of talent. A strong database, powerful advertising and marketing campaigns and a deep understanding of your business increase our ability to deliver quickly and with precision.

Candidates

We take time to understand your skills, ambitions and personality, and are always on hand to provide you with expert advice and support. We combine an expert service with an exceptional network of client relationships, all of whom offer first class working environments and unrivalled career prospects.

Life Sciences – Research & Development

Spotting the global demand for recruitment in Life Sciences, Ideal Healthcare have carved out a specialisation in this area creating capability right across the APAC region. Our wide ranging clients include pharmaceutical, CRO biotech, medical device and research organisations. In all cases our relationships run deep into these firms with a tried and proven history of efficient and accurate delivery.

Healthcare Vendor Industry

At Ideal Healthcare we have a growing team of consultants who provide talent to the healthcare vendor industry. Our key areas include research and development roles, such as clinical medical and regulatory roles, life science, manufacturing with a focus on supply chain, quality, validation and engineering.

Aged Care

At Ideal Healthcare our team prides themselves on having a consultative style, working in partnership with our clients and candidates, becoming an extension to their human resources and mentoring candidates during their job search.

We can help by offering the following services;

- Exposure to the best jobs on the market that are often not in the public domain
- A consultative approach with constructive feedback at all times
- Third party advice through your process and salary guidance / negotiation
- Resume & selection criteria preparation
- Interview advice / preparation
